Civil Defense Preparedness 2021

This course provides a down 'n' dirty orientation to responding to a civil disturbance for your officers.

While officers assigned to a Civil Disturbance Unit are welcome, this 8-hour course is primarily aimed at providing officers and deputies with the foundational knowledge and skills to professionally respond to any level of civil disturbance.

This practical seminar provides the participant with:

- Constitutional Limits to Force in a Civil Disturbance.
- Acting within 1st Amendment Restrictions.
- The Reasonable Force Response.
- Responding with Force Tools (OC Spray, TASER).
- Foundations in Employing the Riot Baton.
- The Reasonable Arrest of Non-Violent Protesters.

This updated course reflects the realities of changing political and social landscapes as well as the evolving expectation of restraint on the part of law enforcement when protecting the constitutional rights of protesting parties.

When a protest turns violent and an illegal assembly has been lawfully declared, officers must have the tools and methods to reasonably and defensibly respond to protect public safety within the rights of those on-scene.

Your Instructor: George T. Williams

George is Director of Training of **Cutting Edge Training, LLC**, and a nationally known Police Master Trainer and author. He extensively defends officers in civil and criminal litigation as an Expert Witness on police force response, deadly force, tactics, policy, and training, and has presented this vital training nationwide. This course, presented only by **Cutting Edge Training**, is constantly updated to reflect the current threats to law enforcement while balancing the needs of the US public to exercise their 1st Amendment rights. Don't miss this opportunity to be trained by a master trainer, who will keep your interest, stimulate your enthusiasm for the job, and provide you with career saving information!
