Officer-Involved Shooting/ Death Investigation

The latest requirements and methods of investigating any Officer-Involved Shooting or Death

This outstanding course, taught by two highly experienced master police trainers, provides every investigator and police administrator with the latest requirements and needs for competent investigation of that most visible and scrutinized police activity, the Officer-Involved Shooting (OIS). Participants will discover:

- The comprehensive investigation: addressing meeting stakeholders' objective concerns.
- The need for increasingly more sophisticated investigations into OIS/In-Custody Deaths.
- The latest in officer and witness rights, preventing civil liability exposure to the investigator.
- Avoiding bias in the investigation.
- Criminal and administrative investigation bifurcation issues.
- Meeting the standards of proof and elements of lawful force.
- Applied forensic human factors.
- Critically understanding and analyzing video evidence.
- Conducting effective interviews of involved officer(s).

Your instructors:

Lt. Paul Belli (retired)

Lt. Paul Belli was the lead homicide investigator with the Sacramento County, California, Sheriff's Department. Lt. Belli holds a bachelors of Science degree in Criminal Justice from CSU Sacramento. Lt. Belli holds two Robert Presely Institute of Criminal Investigations certificates in Homicide and Narcotics investigations. Lt. Belli is a California POST instructor for the Officer Involved Shooting investigations course, a committee member for the ICI Detective training symposium, and the western regional director for the International Homicide Investigators Association.

Sgt. Jeff Martin (ret.), JD, ARM

Sgt. Jeff Martin is a retired police sergeant from the San Jose, California, Police Department. He currently divides his time between serving as a consultant/expert witness, as an attorney representing peace officers and as a police instructor nationally. Sgt. Martin assisted in developing and continues teaching statewide in the California POST "Officer-Involved Shooting Investigations" course. He also developed and taught use-of-force investigations and documentation in the California P.O.S.T. Supervisor School and in the San Jose Police Department Detective Academy. Jeff holds a Juris Doctor degree, a B.A. in Psychology, and is a graduate of the Force Science® Institute Certification Course.
