Pacific Training Group has recognized the need to mitigate the growing trend of injuries and deaths related to targeted ambush/surprise encounters against law enforcement personnel and has developed a training program to counter those trends. These learned skill sets will dramatically enhance and improve the law enforcement officer's Awareness and Threat Detection (ATD) capabilities.

This training can help law enforcement officers thwart potential ambush situations and turn them from a distinct disadvantage into a lifesaving tactical advantage.

It benefits SWAT team tactics as well as patrol officers conducting routine patrol, special events, traffic stops etc. and protects all officers from ambush-type situations. The training also teaches officers methods to accurately assess violator/public contacts and gives the officer the ability to predict the potential for an encounter to escalate into a threatening event.
