

It's Safe for Law Enforcement to Give Help:

Responding to scenes with suspected fentanyl or other opioids.

- **Naloxone works** to reverse fentanyl overdoses.
- **Wait 2-3 minutes** between giving naloxone doses.
- **Support breathing** if someone is not breathing or breathing slowly.
- If concerned about a potential drug exposure, call your local **Poison Center at 1-800-222-1222**.
